The funds' investment objectives, risks, charges and expenses must be considered carefully before investing. Each fund's statutory and summary prospectus contains this and other important information about the investment company, and may be obtained by calling 800.617.0004 or visiting www.aamlive.com. Read it carefully before investing.

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV) and may trade at a discount or premium to NAV. Shares are not individually redeemable from the Fund and may be only be acquired or redeemed from the fund in creation units. Brokerage commissions will reduce returns. Companies with high yield or payout ratio may underperform other securities in certain market conditions and reduce or discontinue paying dividends entirely while included in the index. The Fund's return may not match or achieve a high degree of correlation with the return of the underlying Index. To the extent the Fund utilizes a sampling approach, it may experience tracking error to a greater extent than if the Fund had sought to replicate the Index.

S&P 500 Index is an unmanaged market capitalization weighted index used to measure 500 companies chosen for market size, liquidity and industry grouping, among other factors. Dow Jones Industrials Average is a price weighted average of 30 actively traded bluechip stocks. DJIA covers all industries with the exception of transportation and utilities. It is not possible to invest directly in an index.
