LLC - Limited Liability Company LP - Limited Partnership ULC – Unlimited Liability Corporation IO - Interest Only MTN – Medium Term Note PLC – Public Limited Company <sup>1</sup>Callable. <sup>2</sup>Floating rate security.

<sup>4</sup>Foreign security denominated in U.S. Dollars.

<sup>&</sup>lt;sup>3</sup>Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities are restricted and may be resold in transactions exempt from registration normally to qualified institutional buyers. The total value of these securities is \$157,106,491, which represents 39.0% of total net assets of the Fund.

<sup>&</sup>lt;sup>5</sup>Bank loans generally pay interest at rates which are periodically determined by reference to a base lending rate plus a premium. All loans carry a variable rate of interest. These base lending rates are generally (i) the Prime Rate offered by one or more major United States banks, (ii) the lending rate offered by one or more European banks such as the London Interbank Offered Rate ("LIBOR"), (iii) the Certificate of Deposit rate, or (iv) Secured Overnight Financing Rate ("SOFR"). Bank Loans, while exempt from registration, under the Securities Act of 1933, contain certain restrictions on resale and cannot be sold publicly. Floating rate bank loans often require prepayments from excess cash flow or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. <sup>6</sup>Variable rate security. Rate shown is the rate in effect as of December 31, 2023.

<sup>7</sup> Interest-only security.

8 The rate is the annualized seven-day yield at period end.

#### Note 1 – Organization

AAM/HIMCO Short Duration Fund (the "Fund") is organized as a diversified series of Investment Managers Series Trust, a Delaware statutory trust (the "Trust") which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund's primary investment objective is to seek to provide current income and long-term total return. The Fund's inception date was June 30, 2014, but the Fund commenced investment operations on July 1, 2014. The Fund currently offers three classes of shares: Class A, Class C, and Class I.

The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services — Investment Companies".

#### Note 2 - Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

#### (a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Fund's valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing. Prior to September 8, 2022, securities were valued at fair value as determined in good faith by the Fund's advisor, subject to review and approval by the Valuation Committee, pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee were subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee met as needed. The Valuation Committee was comprised of all the Trustees, but action may have been taken by any one of the Trustees.

#### (b) Corporate Debt Securities

Corporate debt securities are fixed-income securities issued by businesses to finance their operations, although corporate debt instruments may also include bank loans to companies. Notes, bonds, bank loans, debentures and commercial paper are the most common types of corporate debt securities, with the primary difference being their maturities and secured or unsecured status. Commercial paper has the shortest term and is usually unsecured. The broad category of corporate debt securities includes debt issued by domestic or foreign companies of all kinds, including those with small-, mid- and large-capitalizations. Corporate debt may be rated investment grade or below investment grade and may carry variable or floating rates of interest.

Corporate debt securities carry credit risk, interest rate risk and prepayment risk. Credit risk is the risk that a fund could lose money if the issuer of a corporate debt security is unable to pay interest or repay principal when it is due. Some corporate debt securities that are rated below investment grade are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities. The credit risk of a particular issuer's debt security may vary based on its priority for repayment.

Interest rate risk is the risk that the value of certain corporate debt securities will tend to fall when interest rates rise. In general, corporate debt securities with longer terms tend to fall more in value when interest rates rise than corporate debt securities with shorter terms. Prepayment risk occurs when issuers prepay fixed rate debt securities when interest rates fall, forcing the Fund to invest in securities with lower interest rates. Issuers of debt securities are also subject to the provisions of bankruptcy, insolvency and other laws affecting the rights and remedies of creditors that may restrict the ability of the issuer to pay, when due, the principal of and interest on its debt securities.

#### (c) Bank Loans

The Fund may purchase participations in commercial loans (bank loans). Such investments may be secured or unsecured. Loan participations typically represent direct participation, together with other parties, in a loan to a corporate borrower, and generally are offered by banks or other financial institutions or lending syndicates. The Fund may participate in such syndications, or can buy part of a loan, becoming a part lender. When purchasing indebtedness and loan participations, the Fund assumes the credit risk associated with the corporate borrower and may assume the credit risk associated with an interposed bank or other financial intermediary. The indebtedness and loan participations in which the Fund intend to invest may not be rated by any nationally recognized rating service.

Bank loans may be structured to include both term loans, which are generally fully funded at the time of investment and unfunded loan commitments, which are contractual obligations for future funding. Unfunded loan commitments may include revolving credit facilities, which may obligate the Fund to supply additional cash to the borrower on demand, representing a potential financial obligation by the Fund in the future. The Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a senior floating rate interest. Commitment fees are processed as a reduction in cost.

#### (d) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the exdividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history

and market convention. Discounts on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Premiums for callable debt securities are amortized to the earliest call date, if the call price was less than the purchase price. If the call price was not at par and the security was not called, the security is amortized to the next call price and date. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares in proportion to their relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one fund are allocated in proportion to the net assets of each fund except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately made.

#### (e) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their net investment income and any net realized gains to their shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

The Income Tax Statement requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of December 31, 2023, and during the prior three open tax years the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examination in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

#### (f) Distributions to Shareholders

The Fund will make distributions of net investment income monthly and net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

#### (g) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Fund limits its illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Advisor, at any time determines that the value of illiquid securities held

by the Fund exceeds 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Fund's written LRMP.

#### Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the "Agreement") with Advisors Asset Management, Inc. (the "Advisor"). Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Advisor at the annual rate of 0.38% of the Fund's average daily net assets. The Advisor has engaged Hartford Investment Management Company (the "Sub-Advisor") to manage the Fund and pays the Sub-Advisor from its advisory fees.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any front-end or contingent deferred loads, taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 0.84%, 1.59% and 0.59% of the average daily net assets of the Fund's Class A, Class C and Class I Shares, respectively. This agreement is in effect until October 31, 2033, and it may be terminated before that date only by the Trust's Board of Trustees.

For the six months ended December 31, 2023, the Advisor waived a portion of its advisory fees totaling \$83,504. The Advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation in effect at the time such fees were waived or payments made, or (b) the expense limitation in effect at the time of the reimbursement. At December 31, 2023, the amount of these potentially recoverable expenses was \$96,899. The potential recoverable amount is noted as "Commitments and contingencies" as reported on the Statement of Assets and Liabilities. The Advisor may recapture all or a portion of this amount no later than June 30 of the years stated below:

2024	\$ 11,359
2025	-
2026	2,036
2027	83,504
Total	\$ 96,899

UMB Fund Services, Inc. ("UMBFS") serves as the Fund's fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Fund's other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Fund's custodian. The Fund's allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six months ended December 31, 2023, are reported on the Statement of Operations.

IMST Distributors, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), serves as the Fund's distributor (the "Distributor"). The Distributor does not receive compensation from the Fund for its distribution services; the Advisor pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Fund does not compensate trustees and officers affiliated with the Fund's co-administrators. For the six months ended December 31, 2023,

the Fund's allocated fees incurred to Trustees who are not affiliated with the Fund's co-administrators are reported on the Statement of Operations.

The Fund's Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Fund's liability for these amounts is adjusted for market value changes in the invested fund(s) and remains a liability to the Fund until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Fund and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Fund's allocated fees incurred for CCO services for the six months ended December 31, 2023, are reported on the Statement of Operations.

#### Note 4 - Federal Income Taxes

At December 31, 2023, gross unrealized appreciation/(depreciation) of investments, based on cost for federal income tax purposes were as follows:

Cost of investments	\$ 408,990,124
Gross unrealized appreciation	792,016
Gross unrealized depreciation	(11,262,642)
Net unrealized appreciation/(depreciation)	\$ (10,470,626)

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

As of June 30, 2023, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 1,599,990
Undistributed long-term capital gains	
Tax accumulated earnings	1,599,990
	_
Accumulated capital and other losses	(2,810,998)
Unrealized Trustees' deferred compensation	(14,963)
Unrealized appreciation/(depreciation) on investments	(15,401,480)
Total accumulated earnings/(deficit)	\$ (16,627,451)

The tax character of the distributions paid during the fiscal years ended June 30, 2023 and June 30, 2022, were as follows:

Distributions paid from:	2023		2022		
Ordinary income	\$ 16,346,777	\$	5,468,799		
Net long-term capital gains	 -				
Total distributions paid	\$ 16,346,777	\$	5,468,799		

At June 30, 2023, the Fund had an accumulated capital loss carry forward as follows:

Short-term	\$ 1,434,077
Long-term	1,376,921
Total	\$ 2,810,998

The fund utilized \$0 of its capital loss carryforwards during the year ended June 30, 2023. To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

#### Note 5 - Redemption Fee

The Fund may impose a redemption fee of 1.00% of the total redemption amount on all shares redeemed within 30 days of purchase. For the six months ended December 31, 2023 and the year ended June 30, 2023, the Fund received \$2,038 and \$7,771, respectively.

#### Note 6 - Investment Transactions

For the six months ended December 31, 2023, purchases and sales of investments, excluding short-term investments, forward contracts, futures contracts, options contracts and swap contracts were 14,981,036 and 80,710,204, respectively.

#### Note 7 - Shareholder Servicing Plan

The Trust, on behalf of the Fund, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.10% of the Fund's average daily net assets of shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the six months ended December 31, 2023, shareholder servicing fees incurred are disclosed on the Statement of Operations.

#### Note 8 – Distribution Plan

The Trust, on behalf of the Fund, has adopted a Rule 12b-1 plan with respect to the Fund's Class A Shares and Class C Shares. Under the plan, the Fund pays to the Distributor distribution fees for the sale and distribution of the Fund's Class A and Class C Shares and/or shareholder liaison service fees in connection with the provision of personal services to shareholders of each such Class and the maintenance of their shareholder accounts.

For Class A Shares, the maximum annual fee payable to the Distributor for such distribution and/or administrative services is 0.25% of the average daily net assets of such shares. For Class C shares, the maximum annual fees payable to the Distributor for distribution services and administrative services are 0.75% and 0.25%, respectively, of the average daily net assets of such shares. Class I Shares are not subject to any distribution or service fees under the plan.

For the six months ended December 31, 2023, the Fund's distribution and service fees incurred are disclosed on the Statement of Operations.

#### Note 9 - Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

#### Note 10 - Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset
  or liability, either directly or indirectly. These inputs may include quoted prices for the identical
  instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit
  risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of December 31, 2023, in valuing the Fund's assets carried at fair value:

	Level 1	Level 2	Level 3*	Total
Investments				
Asset-Backed Securities	\$ -	\$ 45,467,311	\$ -	\$ 45,467,311
Bank Loans	-	16,775,691	-	16,775,691
Collateralized Mortgage Obligations	-	26,769,420	-	26,769,420
Commercial Mortgage-Backed Securities	-	42,683,996	-	42,683,996
Corporate Bonds <sup>1</sup>	-	156,751,839	-	156,751,839
U.S. Government and Agencies	-	54,251,035	-	54,251,035
Short-Term Investments	55,816,131	-	-	55,816,131
Total Investments	\$ 55,816,131	\$ 342,699,292	\$ -	\$ 398,515,423

<sup>&</sup>lt;sup>1</sup>For a detailed break-out of corporate bonds by major industry classification, please refer to the Schedule of Investments.

#### Note 11 - Unfunded Commitments

The Fund may enter into unfunded loan commitments. Unfunded loan commitments may be partially or wholly unfunded. During the contractual period, the Fund is obliged to provide funding to the borrower upon demand. Unfunded loan commitments are fair valued in accordance with the valuation policy described in Note 2(a) and unrealized appreciation or depreciation, if any, is recorded on the Statement of Assets and Liabilities. As of December 31, 2023, the Fund did not have any unfunded commitments outstanding.

#### Note 12 – Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illnesses and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and other like them are collectively referred to as "Market Disruptions and Geopolitical Risks" and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

#### Note 13 – New Accounting Pronouncements and Regulatory Updates

Effective January 24, 2023, the SEC adopted rule and form amendments to require mutual funds and exchange-traded funds (ETFs) to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in the funds' streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual

<sup>\*</sup>The Fund did not hold any Level 3 securities at period end.

basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these rule and form amendment changes on the content of the current shareholder report and the newly created annual and semiannual streamlined shareholder reports.

In December 2020, the SEC adopted a new rule providing a framework for fund valuation practices ("Rule 2a-5"). Rule 2a-5 establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 will permit fund boards to designate certain parties to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must fair value a security. In connection with Rule 2a-5, the SEC also adopted related recordkeeping requirements and is rescinding previously issued guidance, including with respect to the role of a board in determining fair value and the accounting and auditing of fund investments. The Fund has adopted procedures in accordance with Rule 2a-5.

In March 2020, the FASB issued ASU No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The amendments in the ASU provide optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate and other interbank-offered based reference rates as of the end of 2021. The ASU is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, Reference Rate Reform (Topic 848) - Deferral of the Sunset Date of Topic 848, which extends the period through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

#### Note 14 - Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements. There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

### AAM/HIMCO Short Duration Fund EXPENSE EXAMPLE

#### For the Six Months Ended December 31, 2023 (Unaudited)

#### **Expense Example**

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase of Class A shares; and (2) ongoing costs, including management fees; distribution and 12b-1 fees (Class A and Class C shares only) and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 to December 31, 2023.

#### **Actual Expenses**

The information in the row titled "Actual Performance" of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, under the column titled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

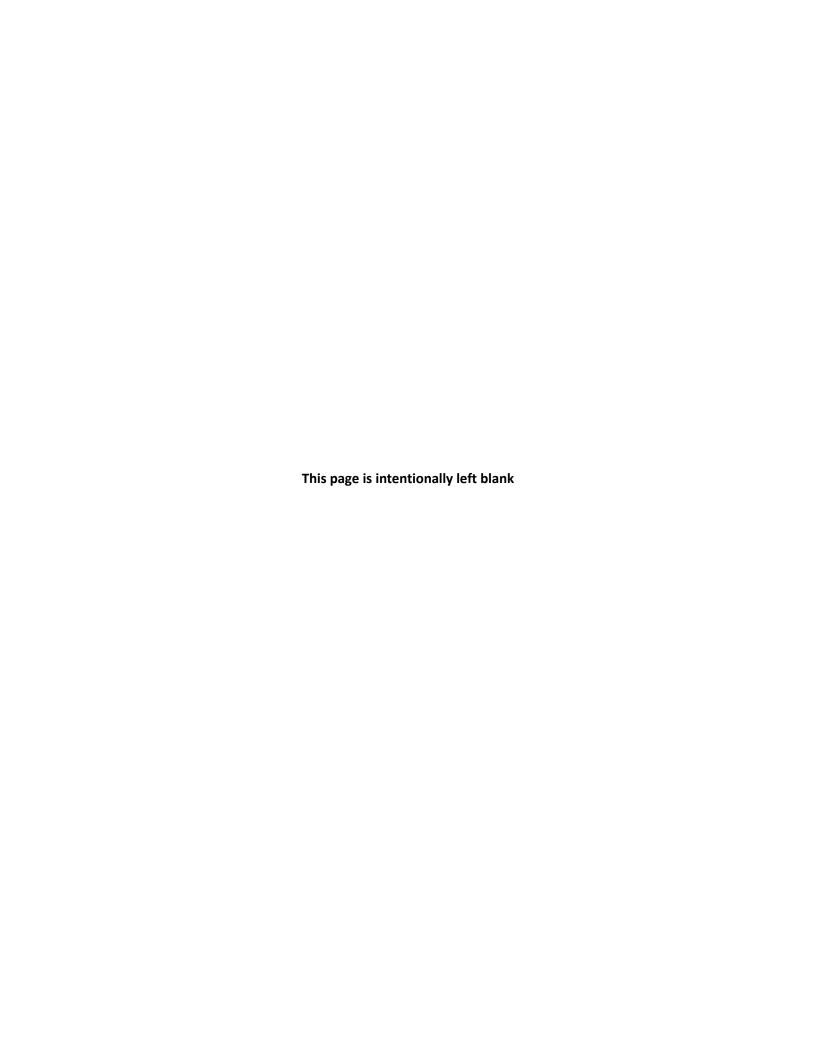

#### **Hypothetical Example for Comparison Purposes**

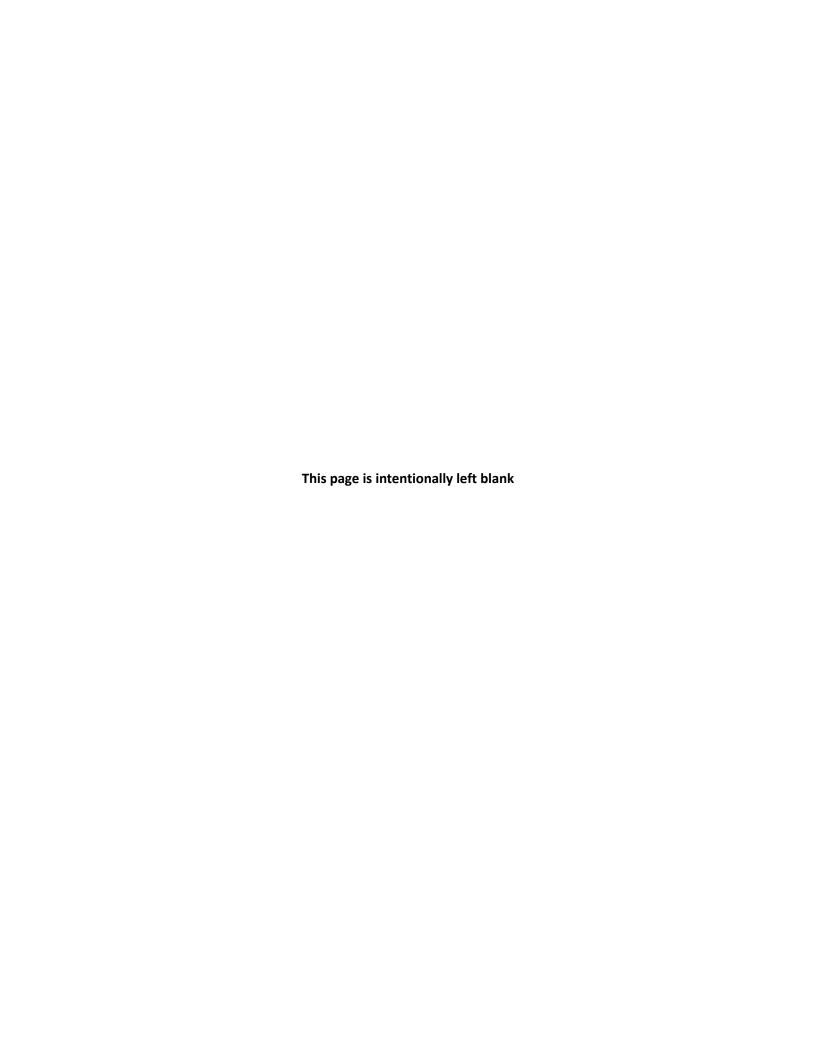

The information in the row titled "Hypothetical (5% annual return before expenses)" of the table below provides hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (load) or contingent deferred sales charges. Therefore, the information in the row titled "Hypothetical (5% annual return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning Account	Ending Account	Expenses Paid
		Value	Value	During Period*
		7/1/23	12/31/23	7/1/23-12/31/23
Class A	Actual Performance	\$1,000.00	\$1,032.80	\$4.30
	Hypothetical (5% annual return before expenses)	1,000.00	1,020.98	4.28
Class C	Actual Performance	1,000.00	1,028.30	8.13
	Hypothetical (5% annual return before expenses)	1,000.00	1,017.21	8.08
Class I	Actual Performance	1,000.00	1,034.30	3.02
	Hypothetical (5% annual return before expenses)	1,000.00	1,022.24	3.01

<sup>\*</sup> Expenses are equal to the Fund's annualized expense ratio of 0.84%, 1.59% and 0.59% for Class A, Class C and Class I shares, respectively, multiplied by the average account values over the period, multiplied by 184/366 (to reflect the six month period). The expense ratios reflect a recovery of previously waived fees. Assumes all dividends and distributions were reinvested.

#### Privacy Principles of the AAM /HIMCO Short Duration Fund for Shareholders

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

This report is sent to shareholders of the AAM/HIMCO Short Duration Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

#### **Proxy Voting Policies and Procedures**

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (888) 966-9661, or on the U.S. Securities and Exchange Commission's ("SEC") website at <a href="https://www.sec.gov">www.sec.gov</a>.

#### **Proxy Voting Record**

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (888) 966-9661, or by accessing the Fund's Form N-PX on the SEC's website at <a href="https://www.sec.gov">www.sec.gov</a>.

#### **Fund Portfolio Holdings**

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT within 60 days of the end of such fiscal quarter. Shareholders may obtain the Fund's Form N-PORT on the SEC's website at <a href="https://www.sec.gov">www.sec.gov</a>.

Prior to the use of Form N-PORT, the Fund filed its complete schedule of portfolio holdings with the SEC on Form N-Q, which is available online at <a href="https://www.sec.gov">www.sec.gov</a>

#### Householding

The Fund will mail only one copy of shareholder documents, including prospectuses and notice of annual and semi-annual reports availability and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Fund at (888) 966-9661.
