Note 1 - Organization

AAM/Insight Select Income Fund (the "Fund") is organized as a diversified series of Investment Managers Series Trust, a Delaware statutory trust (the "Trust") which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act").

The Fund's primary investment objective is to seek current income. The Fund currently offers four classes of shares: Class A, Class C, Class I and Class Y. The Fund's Class A, Class C and Class I shares commenced investment operations on April 19, 2013. The Fund's Class Y shares commenced investment operations on October 31, 2017.

The shares of each class represent an interest in the same portfolio of investments of the Fund and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services—Investment Companies".

Note 2 - Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Fund values equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Fund might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Fund's valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing. Prior to September 8, 2022, securities were valued at fair value as determined in good faith by the Fund's advisor, subject to review and approval by the Valuation Committee, pursuant to procedures adopted by the Board of Trustees. The actions of the Valuation Committee were subsequently reviewed by the Board at its next regularly scheduled board meeting. The Valuation Committee met as needed. The Valuation Committee was comprised of all the Trustees, but action may had been taken by any one of the Trustees.

(b) Futures Contracts

The Fund may enter into futures contracts (including contracts relating to foreign currencies, interest rates and other financial indexes), and purchase and write (sell) related options traded on exchanges designated by the Commodity Futures Trading Commission ("CFTC") or, consistent with CFTC regulations, on foreign exchanges. Upon entering into futures contracts, the Fund bears risks that it may not achieve the anticipated benefits of the futures contracts and may realize a loss. Additional risks include counterparty credit risk, the possibility of an illiquid market, and that a change in the value of the contract or option may not correlate with changes in the value of the underlying asset.

Upon entering into a futures contract, the Fund deposits cash or securities with the broker, known as a futures commission merchant (FCM), in an amount sufficient to meet the initial margin requirement. The initial margin deposit must be maintained at an established level over the life of the contract. Cash deposited as initial margin is recorded in the Statement of Assets and Liabilities as cash deposited with broker. Securities deposited as initial margin are designated in the Schedule of Investments. During the period the futures contracts are open, changes in the value of the contracts are recognized as unrealized gains or losses by "marked to market" on a daily basis to reflect the market value of the contracts at the end of each day's trading. Variation margin payments are received or made depending upon whether unrealized gains or losses are incurred. The variation margin payments are equal to the daily change in the contract value and are recorded as variation margin receivable or payable and are offset in unrealized gains or losses. Depending upon the agreement with the broker, the Fund may or may not settle variation margin daily. When the contracts are closed or expires, the Fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the Fund's basis in the contract.

(c) Asset-Backed Securities

Asset-backed securities include pools of mortgages, loans, receivables or other assets. Payment of principal and interest may be largely dependent upon the cash flows generated by the assets backing the securities, and, in certain cases, supported by letters of credit, surety bonds, or other credit enhancements. The value of asset-backed securities may also be affected by the creditworthiness of the servicing agent for the pool, the originator of the loans or receivables, or the financial institution(s) providing the credit support. In addition, asset-backed securities are not backed by any governmental agency.

Collateralized Debt Obligations ("CDOs") include Collateralized Bond Obligations ("CBOs"), Collateralized Loan Obligations ("CLOs") and other similarly structured securities. CBOs and CLOs are types of asset backed securities. A CBO is a trust which is backed by a diversified pool of high risk, below investment grade fixed income securities. A CLO is a trust typically collateralized by a pool of loans, which may include, among others, domestic and foreign senior secured loans, senior unsecured loans, and subordinate corporate loans, including loans that may be rated below investment grade or equivalent unrated loans. The risks of an investment in a CDO depend largely on the type of the collateral securities and the class of the CDO in which a Fund invests. CDOs carry additional risks including, but not limited to, (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments, (ii) the collateral may decline in value or default, (iii) a Fund may invest in CDOs that are subordinate to other classes, and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results.

(d) Preferred Stock Risk

Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred stock is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company's creditworthiness, the ability of the company to make payments on the preferred stock, and changes in interest rates, typically declining in value if interest rates rise.

(e) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statement of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Fund records a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one Fund are allocated in proportion to the net assets of each Fund except where allocation of direct expenses to each Fund or an alternative allocation method can be more appropriately made.

(f) Federal Income Taxes

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of their net investment income and any net realized gains to their shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Fund recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

The Income Tax Statement requires management of the Fund to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Fund's current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of December 31, 2023, and during the prior three open tax years the Fund did not have a liability for any unrecognized tax benefits. The Fund has no examinations in progress and is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(g) Distributions to Shareholders

The Fund will make distributions of net investment income monthly and net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income, expense and gain (loss) items for financial statement and tax purposes.

(h) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Fund limits its illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value

of the investment. If the Advisor, at any time determines that the value of illiquid securities held by the Fund exceeds 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Fund's written LRMP.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Fund, entered into an Investment Advisory Agreement (the "Agreement") with Advisors Asset Management, Inc. (the "Advisor"). Under the terms of the Agreement, the Fund pays a monthly investment advisory fee to the Advisor at the annual rate of 0.38% of the Fund's average daily net assets. The Advisor has engaged Insight North America LLC (the "Sub-Advisor") to manage the Fund and pay the Sub-Advisor from its advisory fees.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, or extraordinary expenses such as litigation expenses) do not exceed 0.85%, 1.60%, 0.60% and 0.50% of the average daily net assets of the Fund's Class A, Class C, Class I and Class Y Shares, respectively. This agreement is in effect until October 31, 2033, and it may be terminated before that date only by the Trust's Board of Trustees.

For the six months ended December 31, 2023, the Advisor waived its fees totaling \$130,773 for the Fund. The Advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Fund if the reimbursement will not cause the Fund's annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. At December 31, 2023, the amount of these potentially recoverable expenses was \$927,335. The potential recoverable amount is noted as "Commitments and contingencies" as reported on the Statement of Assets and Liabilities. The Advisor may recapture all or a portion of this amount no later than June 30 of the years stated below:

2024	\$ 289,414
2025	273,130
2026	234,038
2027	130,773
Total	\$ 927,355

UMB Fund Services, Inc. ("UMBFS") serves as the Fund's fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Fund's other co-administrator. UMB Bank, N.A., an affiliate of UMBFS, serves as the Fund's custodian. The Fund's allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six months ended December 31, 2023, are reported on the Statement of Operations.

IMST Distributors, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), serves as the Fund's distributor (the "Distributor"). The Distributor does not receive compensation from the Fund for its distribution services; the Advisor pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Fund does not compensate trustees and officers affiliated with the Fund's co-administrators. For the six months ended December 31, 2023, the Fund's

allocated fees incurred to Trustees who are not affiliated with the Fund's co-administrators are reported on the Statement of Operations.

The Fund's Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Fund's liability for these amounts is adjusted for market value changes in the invested fund and remains a liability to the Fund until distributed in accordance with the Plan. The Trustees' Deferred compensation liability under the Plan constitutes a general unsecured obligation of the Fund and is disclosed in the Statement of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statement of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Fund's allocated fees incurred for CCO services for the six months ended December 31, 2023, are reported on the Statement of Operations.

Note 4 – Federal Income Taxes

At December 31, 2023, gross unrealized appreciation and (depreciation) of investments, based on cost for federal income tax purposes were as follows:

Cost of investments	\$ 147,540,850
	 _
Gross unrealized appreciation	2,404,705
Gross unrealized depreciation	 (12,189,400)
Net unrealized appreciation (depreciation)	\$ (9,784,695)

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

As of June 30, 2023, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	\$ 422,404
Undistributed long-term capital gains	-
Tax accumulated earnings	442,404
Accumulated capital and other losses	(9,898,203)
Deferred Compensation Outstanding	(11,723)
Unrealized appreciation (depreciation) on investments	(16,792,339)
Total accumulated earnings (deficit)	\$ (26,279,861)

The tax character of the distributions paid during the fiscal years ended June 30, 2023, and June 30, 2022 were as follows:

	2023	2022
Distributions paid from:		
Ordinary income	\$ 4,483,601	\$ 6,470,263
Net long-term capital gains		324,321
Total distributions paid	\$ 4,483,601	\$ 6,794,584

At June 30, 2023, the Fund had an accumulated capital loss carry forward as follows:

Total	\$ 9,898,203
Long-term	8,205,858
Short-term	\$ 1,692,345

To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carryforward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

Note 5 - Redemption Fee

The Fund may impose a redemption fee of 2.00% of the total redemption amount on all shares redeemed within 90 days of purchase. For the six months ended December 31, 2023 and the year ended June 30, 2023, the Fund received \$3,245 and \$2,311, respectively, in redemption fees.

Note 6 - Investment Transactions

For the six months ended December 31, 2023, purchases and sales of investments, excluding short-term investments and futures contracts, were \$46,118,856 and \$22,281,001, respectively.

Note 7 - Shareholder Servicing Plan

The Trust, on behalf of the Fund, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.10% of the average daily net assets attributable to Class A shares, Class C shares, and Class I shares serviced by shareholder servicing agents who provide administrative and support services to their customers. The Class Y shares do not participate in the Shareholder Servicing Plan.

For the six months ended December 31, 2023, shareholder servicing fees incurred are disclosed on the Statement of Operations.

Note 8 - Distribution Plan

The Trust, on behalf of the Fund, has adopted a Rule 12b-1 plan with respect to its Class A and Class C Shares. Under the plan, the Fund pays to the Distributor distribution fees in connection with the sale and distribution of the Fund's Class A and Class C Shares and/or administrative service fees in connection with the provision of ongoing services to shareholders and the maintenance of shareholder accounts.

For Class A Shares, the maximum annual fee payable to the Distributor for such distribution and/or administrative services is 0.25% of the average daily net assets of such shares. For Class C shares, the maximum annual fees payable to the Distributor for distribution services and administrative services are 0.75% and 0.25%, respectively, of the average daily net assets of such shares. Class I Shares and Class Y shares are not subject to any distribution or service fees under the Plan.

For the six months ended December 31, 2023, distribution and service fees incurred are disclosed on the Statement of Operations.

Note 9 - Indemnifications

In the normal course of business, the Fund enters into contracts that contain a variety of representations, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund expects the risk of loss to be remote.

Note 10 - Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of December 31, 2023, in valuing the Fund's assets carried at fair value:

	Level 1	Level 2	L	evel 3*	Total
Assets					
Investments					
Asset-Backed Securities	\$ -	\$ 15,294,573	\$	-	\$ 15,294,573
Commercial Mortgage-Backed Securities	-	845,794		-	845,794
Corporate Bonds ¹	-	110,483,330		-	110,483,330
Municipal Bonds	-	257,074		-	257,074
U.S. Government and Agencies	-	10,193,701		-	10,193,701
Short-Term Investments	681,683	-		-	681,683
Total Investments	681,683	137,074,472		-	137,756,155
Other Financial Instruments**					
Futures Contracts	743,086	-		-	743,086
Total Assets	\$ 1,424,769	\$ 137,074,472	\$	-	\$ 138,499,241
liabilità a					
Liabilities					
Other Financial Instruments**					
Futures Contracts	\$ 349,327	\$ -	\$	-	\$ 349,327
Total Liabilities	\$ 349,327	\$ -	\$	-	\$ 349,327

¹For a detailed break-out of corporate bonds by major sector classification, please refer to the Schedules of Investments. *The Fund did not hold any Level 3 securities at period end.

Note 11 - Derivatives and Hedging Disclosures

Derivatives and Hedging requires enhanced disclosures about the Fund's derivative and hedging activities, including how such activities are accounted for and their effects on the Fund's financial position and performance. The Fund invested in futures contracts during the six months ended December 31, 2023.

The effects of these derivative instruments on the Fund's financial position and financial performance as reflected in the Statement of Assets and Liabilities and Statement of Operations are presented in the tables below. The fair values of derivative instruments, as of December 31, 2023, by risk category are as follows:

		De	Asset erivatives	Liability erivatives
Derivatives not designated	Statement of Asset and			_
as hedging instruments	Liabilities Location		Value	Value
	Unrealized appreciation/depreciation			
Interest Rate Contracts	on open futures contracts*	\$	743,086	\$ 349,327

^{**}Other financial instruments are derivative instruments such as futures contracts. Futures contracts are valued at the unrealized appreciation (depreciation) on the instrument.

*Includes cumulative appreciation/depreciation on futures contracts as reported in the Schedule of Investments. Net unrealized appreciation/depreciation is shown as variation margin as presented on the Statements of Assets and Liabilities.

The effects of derivative instruments on the Statement of Operations for the six months ended December 31, 2023, are as follows:

Amount of Realized Gain or (Loss	s) on Derivatives Recognized in Income

Derivatives not designated		
as hedging instruments		Total
Interest Rate Contracts	Futures Contracts	\$ (460,807)

Change in Unrealized Appreciation/Depreciation on Derivatives Recognized in Income

Derivatives not designated	į.	
as hedging instruments		Total
Interest Rate Contracts	Futures Contracts	\$ 358,767

The quarterly average volumes of derivative instruments as of December 31, 2023, are as follows:

Derivatives not designated as
la a al artica artica a businessa a mater

hedging instruments			Total
Interest Rate Contracts	Long Futures Contracts	Notional Amount	\$ 25,237,097
Interest Rate Contracts	Short Futures Contracts	Notional Amount	(15,638,975)

Note 12 – Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illnesses and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and other like them are collectively referred to as "Market Disruptions and Geopolitical Risks" and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 13 - Recently Issued Accounting Pronouncements

Effective January 24, 2023, the SEC adopted rule and form amendments to require mutual funds and exchange-traded funds (ETFs) to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in the funds' streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these rule and form amendment changes on the content of the current shareholder report and the newly created annual and semiannual streamlined shareholder reports.

In October 2020, the SEC adopted new regulations governing the use of derivatives by registered investment companies ("Rule 18f-4"). Rule 18f-4 will impose limits on the amount of derivatives a Fund can enter into, eliminate the asset segregation framework currently used by funds to comply with Section 18 of the 1940 Act, and require funds whose use of derivatives is greater than a limited specified amount to establish and maintain a comprehensive derivatives risk management program and appoint a derivatives risk manager. The Fund has adopted procedures in accordance with Rule 18f-4.

In December 2020, the SEC adopted a new rule providing a framework for fund valuation practices ("Rule 2a-5"). Rule 2a-5 establishes requirements for determining fair value in good faith for purposes of the 1940 Act. Rule 2a-5 will permit fund boards to designate certain parties to perform fair value determinations, subject to board oversight and certain other conditions. Rule 2a-5 also defines when market quotations are "readily available" for purposes of the 1940 Act and the threshold for determining whether a fund must fair value a security. In connection with Rule 2a-5, the SEC also adopted related recordkeeping requirements and is rescinding previously issued guidance, including with respect to the role of a board in determining fair value and the accounting and auditing of fund investments. The Fund has adopted procedures in accordance with Rule 2a-5.

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The amendments in the ASU provide optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate and other interbank-offered based reference rates as of the end of 2021. The ASU is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, Reference Rate Reform (Topic 84–) - Deferral of the Sunset Date of Topic 848, which extends the period through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

Note 14 - Events Subsequent to the Fiscal Period End

The Fund has adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Fund's related events and transactions that occurred through the date of issuance of the Fund's financial statements.

There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Fund's financial statements.

AAM/Insight Select Income Fund EXPENSE EXAMPLE

For the Six Months Ended December 31, 2023 (Unaudited)

Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase of Class A shares; and (2) ongoing costs, including management fees; distribution and 12b-1 fees (Class A and Class C shares only) and other Fund expenses. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from July 1, 2023 to December 31, 2023.

Actual Expenses

The information in the row titled "Actual Performance" of the table below provides actual account values and actual expenses. You may use the information in these columns, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the appropriate row for your share class, under the column titled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

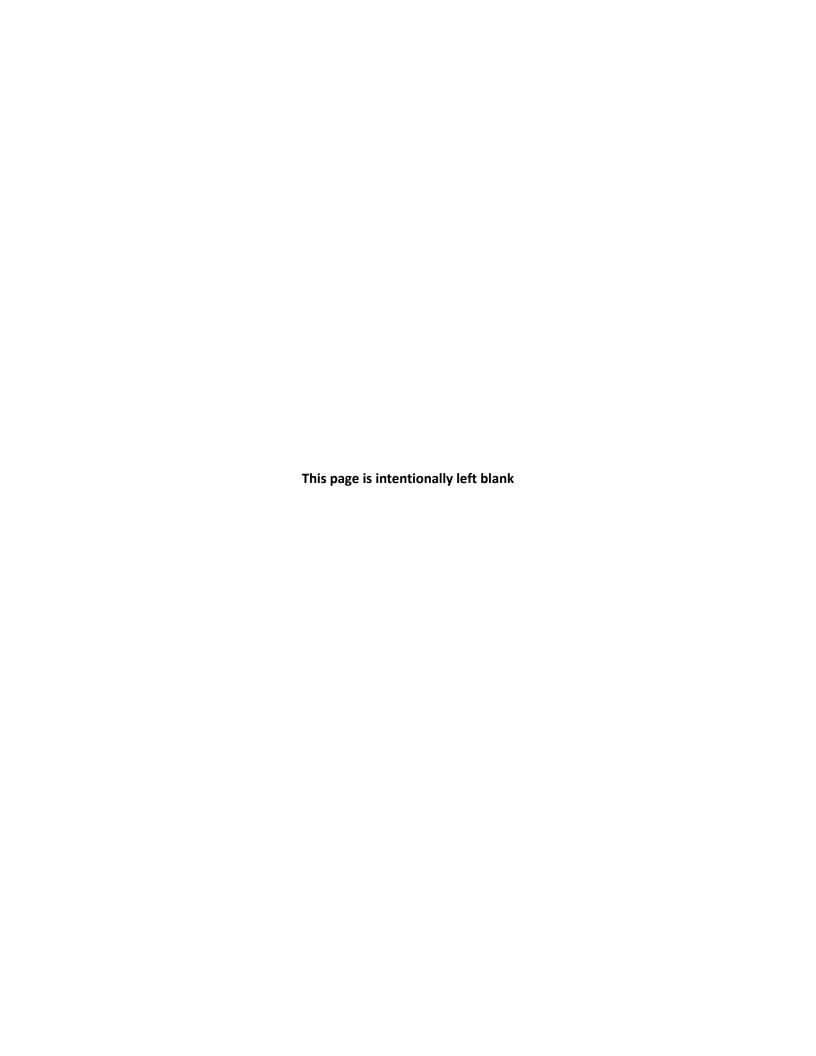

The information in the row titled "Hypothetical (5% annual return before expenses)" of the table below provides hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (load) or contingent deferred sales charges. Therefore, the information in the row titled "Hypothetical (5% annual return before expenses)" is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning	Ending Account	Expenses Paid During
		Account Value	Value	Period
		7/1/23	12/31/23	7/1/23 – 12/31/23
Class A*	Actual Performance	\$ 1,000.00	\$ 1,054.20	\$ 4.13
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,021.19	4.06
Class C*	Actual Performance	1,000.00	1,049.50	8.03
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,017.37	7.91
Class I*	Actual Performance	1,000.00	1,054.60	2.84
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,022.44	2.79
Class Y*	Actual Performance	1,000.00	1,054.90	2.61
	Hypothetical (5% annual			
	return before expenses)	1,000.00	1,022.58	2.57

AAM/Insight Select Income Fund EXPENSE EXAMPLE - Continued For the Six Months Ended December 31, 2023 (Unaudited)

^{*} Expenses are equal to the Fund's annualized expense ratios of 0.80%, 1.56%, 0.55%, and 0.50% for Class A, Class C, Class I, and class Y shares, respectively, multiplied by the average account values over the period, multiplied by 184/365 (to reflect the six month period). The expense ratios reflect an expense waiver. Assumes all dividends and distributions were reinvested.

Privacy Principles of the AAM/Insight Select Income Fund for Shareholders

The Fund is committed to maintaining the privacy of its shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Fund does not receive any non-public personal information relating to its shareholders, although certain non-public personal information of its shareholders may become available to the Fund. The Fund does not disclose any non-public personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

This report is sent to shareholders of the AAM/Insight Select Income Fund for their information. It is not a Prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or of any securities mentioned in this report.

Proxy Voting Policies and Procedures

A description of the Fund's proxy voting policies and procedures related to portfolio securities is available without charge, upon request, by calling the Fund at (888) 966-9661, or on the U.S. Securities and Exchange Commission's ("SEC") website at www.sec.gov.

Proxy Voting Record

Information regarding how the Fund voted proxies for portfolio securities, if applicable, during the most recent 12-month period ended June 30, is also available, without charge and upon request by calling (888) 966-9661, or by accessing the Fund's Form N-PX on the SEC's website at www.sec.gov.

Fund Portfolio Holdings

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT within 60 days of the end of such fiscal quarter. Shareholders may obtain the Fund's Form N-PORT on the SEC's website at www.sec.gov.

Prior to the use of Form N-PORT, the Fund filed its complete schedule of portfolio holdings with the SEC on Form N-Q, which is available online at www.sec.gov

Householding

The Fund will mail only one copy of shareholder documents, including prospectuses and notice of annual and semi-annual reports availability and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call the Fund at (888) 966-9661.
